

**The Vegan Digest**  
**TVD Flash Report 'Fortune 100 Companies Offer Affordable Vegan Products'**  
**(Issued as Original Open-Source Content for Consumers)**

As of October 2025, Fortune 100 Companies offer quality vegan products at affordable prices that The Vegan Digest is reasonably able to recommend.

The following quote is a concluding excerpt from a recent TVD Flash Report 'Moisture in Plant-Based Chicken' (issued as part of TVD Publication #3 in September 2025):

"The Vegan Digest believes that while many plant-based products lag the realness of animal-derived foods, plant-based chick'n nuggets, as well as basic plant-based cheeses, and plant-based burger patties are near-perfect substitutions or even exceed the quality of their animal-based competition."

In the United States, here's where to purchase consumer packaged plant-based chick'n nuggets, basic cheeses, and burger patties.

Walmart, Inc. (Walmart) offers plant-based products within their "Bettergoods" product line and they also offer third party vegan brand products. As of October 2025, The Vegan Digest recommends that you purchase low-cost Bettergoods plant-based chick'n nuggets and basic plant-based cheeses as well as plant-based milks from Walmart.

Amazon.com, Inc. (Amazon) offers plant-based products within their "365 by Whole Foods Market" product line and they also offer third party vegan brand products. As of October 2025, The Vegan Digest recommends that you purchase low-cost 365 plant-based basic cheeses as well as plant-based milks from Amazon's Whole Foods Market.

The Kroger Co. (Kroger) often significantly discounts third party vegan brand products that include discounted plant-based chick'n nuggets and patties as well as plant-based burger patties. As of October 2025, The Vegan Digest recommends that you purchase low-cost or discounted third party plant-based chick'n nuggets, plant-based chick'n patties, and plant-based burger patties from Kroger.
